*Birla Institute of Technology and Science, Pilani*

## SKILLS

React • NextJs • Flutter & Dart • NodeJs • Javascript • Typescript • HTML & CSS
Tailwind CSS • Java • Docker • Figma • Git

## PROJECTS

**MyCodeJudge – LeetCode Clone** ⬈
- Acquired new skills swiftly to successfully deliver MyCodeJudge in just one week.
- User-friendly coding environment featuring an elegant code editor UI, seamless authentication, and dynamic question management. Additionally, implemented an admin panel for dynamic question control
- Stack :- Next.js, Shadcn UI, Tailwind CSS, Node.js, MongoDB, Docker, and OAuth
- Demo Video ⬈

**PaperSync - Google Docs Clone** ⬈
- A Google Doc clone using MERN stack and Tailwind CSS.
- Key features: User Authentication, Real-time Collaboration, Template Selection, and User Access Management.
- Demonstrates strong web and app development skills.

**Real-Time Chat Application** ⬈
- Developed using React, Tailwind, and Socket.io, allowing private and global chats with account creation or anonymous participation.
- Integrated authentication for account creation and privacy control.
- Implemented Node.js and Socket.io for efficient real-time messaging across devices.

**VeriSecure** ⧉
- Co-created VeriSecure at ETHIndia Hackathon, collaborating with a new team.
- Led Frontend development, optimizing document verification for speed and security.
- Received praise for swift delivery, showcasing effective collaboration skills with unfamiliar teammates.

**Red Letter – Web3 Project** ⧉
- Developed Red Letter in 2-day Unfold23 Hackathon, using Solidity, Tailwind CSS, NextJs, Hardhat, and wagami.
- Designed & coded a responsive platform with innovative features.
- Received praise for swift delivery, showcasing effective collaboration skills with unfamiliar teammates.
- Demo Video ⧉

**PockETH TOGETHER** ⧉
- Received praise for rapid frontend development on PockETH during ETH India hackathon, collaborating with unfamiliar teammates and another team.
- Demonstrated agile collaboration skills, contributing to a seamless partnership and garnering commendation for swift delivery.
- Successfully managed dual collaboration with another team, showcasing flexibility and effective communication in a fast-paced hackathon environment.
- Demo Video ⧉

**BlockON  + CMS** ⧉
- Made a visually stunning website featuring the latest animations.
- Achieved a 95 optimization score using Next.js, MongoDB, Tailwind CSS, and server components.
- Implemented a user-friendly CMS and admin panel for seamless content management.

**LiteraryLane - eCommerce** ⧉
- Features: Elegant Animations, Cart Management, Rich Blog Content
- Showcase: Stunning UI and Responsiveness
- Demonstrates Skills in: React.js, Next.js, Tailwind CSS, GSAP, MongoDB
